Learning, networking, sharing all in one place: the wonders of CoPs

A discussion with Earth-Eval and EvalForward
Defining Communities of Practice

Groups of people who share a profession or domain of competence and deepen their expertise in the subject by interacting with one another.
Jointly supported by the evaluation offices of FAO, IFAD and WFP

GOAL: enhancing capacities for evaluation in agriculture, food security and rural development

AGE: 1+ year old

MEMBERS: 500 from 90 countries

ACTIVITIES:
- Peer to peer exchange
- Information sharing
- Virtual and face to face events
- Networking

Hosted by the Independent Evaluation Office of the GEF

GOAL: establish standards and norms, support capacity development, and share best practices in evaluation tied to the environment and development

AGE: +10 years old

MEMBERS: 1900 from +90 countries

ACTIVITIES:
- Blogs
- Special Studies
- Information sharing
- Networking

M&E in the public sector:
How can we increase funding in agriculture?

Posted by

CHRISTINE KATAIKE ABONG
Principal Data Analyst
Local Government Finance Commission

Nabyoung Jean Stanislas Ouedraogo
Specialist in Soil Evaluation, Programme d'amélioration de la productivité agricole des petits exploitants en Afrique Subsaharienne

Le financement du secteur agricole est un problème général en Afrique notamment au Burkina Faso dont je suis ressortissant. Le problème de financement se pose à mon niveau à 3 niveaux.

Berlin Desouvo
Partner, M & D Project Development

Cher Christine,

Les questions que vous abordez sont propres à de nombreux états sub sahariens. Une analyse de la loi des finances permet de comprendre que des secteurs bien que prioritaires dans la perspective et dans la définition, n'ont pas reçu en termes de financement pour nous aider.

Richard Tipton
Professor Emeritus, Colorado State University

In response to Kelvin comment I would like to offer my opinion as to the role of M&E. That is primary reason for M&E is to represent the underlying taxpayer or other funders to make certain funds invested are effectively used. To do this by default it become the representative of the beneficiaries. The secondary purpose of M&E is to guide future projects to more effectively identify and serve the needs of

Paul L. Mendy
Monitoring and Evaluation Specialist
R&D (AED) (DSS) co-funded: Sentinel National Agricultural Land and Water Management Development Project (Sentinel) in The Gambia

Dear EvalCommunity,

My talk on the topic "Enhancing funding and service delivery in Agriculture: Any Ideas?" is simply as follows.

Emile N. Houngbo
Agricultural Economist, Senior Lecturer (National University of Agriculture, Berlin)

Bonjour Chère Colleague.

Vous soulevez un problème intéressant et préoccupant qui touche le secteur agricole, le secteur que l'Afrique a tout intérêt à développer rapidement. En effet, le secteur agricole est le secteur qui utilise la moitié de la population active en Afrique. Elle contribue à 35% du Produit Intérieur.

Evaluation and participation in rural communities: drawings that show how lives have changed

WFP Country Office in Colombia conducted its decentralized mid-term evaluation and shared results with cooperating partners and communities involved using an innovative and participatory approach.

The evaluation

In 2018, the WFP country office in Colombia carried out the mid-term evaluation of its Prolonged Relief and Recovery Operation. The evaluation included innovative food-assistance elements that take into account...

Publications

- **Good Practice Study on Principles for Indicator Development, Selection, and Use in Climate Change Adaptation Monitoring and Evaluation**
  
The Independent Evaluation Office of the Global Environment Facility (GEF IEO) has undertaken - on behalf of Climate Eval - a Good Practice Study on Indicator Development, Selection and Use Principles for Climate Change Adaptation M&E. This study identifies and addresses key challenges concerning M&E for CCA by documenting good practices and related principles on the development, selection, and use of indicators used in the M&E of adaptation interventions.

- **Guidelines to Climate Mitigation Evaluations**
  
  By: Dr. Christine Wörlen
  These guidelines for climate mitigation evaluations are intended to clarify some of the persistent evaluation and measurement issues associated with climate mitigation interventions. This paper is a contribution towards solving some of the persistent methodological questions by formulating guidelines facing climate change mitigation evaluation. It has a focus on a theory-based approach for evaluating mitigation interventions and deals with a number of conceptual and practical challenges.
